- 10 The girl is adding.
The man is subtracting.
The boy is dividing.
The woman is multiplying.
- 11 To find out how much the museum tour costs for the class, multiply the number of people by the ticket price.
To find out how many soccer players there are, add the red team and the blue team.
To find out how many eggs you'll have left, subtract the number you'll use from the number you have.
To find out how many slices everyone can have, divide the number of slices by the number of people.
- 12 Last week I didn't know the answers to any of the questions because I didn't study.
This week I know the answers to all the questions because I studied!
I'm dividing to find out the answer to the math problem.
The answer is forty-two!
- 13 If you add two to six, the answer is eight.
If you subtract two from six, the answer is four.
If you multiply six by two, the answer is twelve.
If you divide six by two, the answer is three.
- 14 We want to go to the doctor to find out if it's a boy or a girl.

- 16 What are you studying?
I'm studying for my biology class.
I'm studying for my astronomy class.
I'm studying for my chemistry class.
I'm studying for my math class.
- 17 She's a biologist. She studies the plants and animals that live in the rain forest.
He's a chemist. He's manufacturing new chemicals.
They're astronomers. They're using a telescope to look at the stars.
- 18 The biologists discovered that the cells were growing.
The astronomer used a telescope to discover a new star.
When I was traveling in the rain forest, I discovered a new plant.
- 19 The chemist is working on an experiment to discover chemicals in the water.
The biologist is working on an experiment to discover how well plants grow under water.
The astronomer is trying to discover new planets far from Earth.
- 20 What type of experiment are you doing?
I'm doing a biology experiment.
What type of experiment are you doing?
I'm doing a chemistry experiment.
- 21 This astronomer is studying the planets.
This biologist studies the birds in this forest.
This chemist is about to discover what happens when you add these chemicals together.
- 22 I could have been a biologist, but I liked chemistry more.
The plant might have grown well, but you didn't water it enough.
We would have bought a telescope, but we didn't have enough money.
You could have borrowed my umbrella if you had asked for it.
- 23 I would have finished my experiment, but my microscope broke.
She would have played outside yesterday, but it was raining.
He would have made it to work on time, but his car had a flat tire.
He would have played tennis, but he was too tired.

We would have gone ice skating, but it was too hot.
You would have gone to the party, but you slept instead.
They would have gone home, but they were late for the train.
- 25 Today, you'll be presenting the experiments that you have done.
I did a biology experiment to discover if music helps plants grow.
I have two plants, and I gave them the same amount of water and light.
I didn't play my violin for this plant, but I did play it for the other plant.
What have you discovered?
The plant that I played my violin for grew two inches in two weeks. The other plant grew one inch.
- 26 I did an astronomy experiment to discover how many planets I can see with and without a telescope.
I could see five planets without a telescope...
...but when I used a telescope, I could see seven planets.

2.4 Core Lesson

- 27 For my chemistry experiment, I wanted to discover if the chemicals in coffee and tea are different.
I put paper in coffee and tea, and then looked at the chemicals on the paper with a microscope.
This represents the chemicals that I found in the tea and coffee.
I discovered that tea and coffee have many of the same chemicals, but also some different ones.
- 28 The astronomer is looking at stars with a telescope.
The student is studying stars in an astronomy class.
The biologist is looking at cells with a microscope.
The students are studying cells in a biology class.
- 01 You've become husband and wife.
In this photo he was a child, but he became an adult.
They are about to become citizens of the United States.
She became a grandmother last year.
Milk can become butter.

It's due tomorrow, and I have a lot left to finish.
When is your assignment due?
It isn't due until next month, so I have a lot of time.
- 13 The letter from her daughter is only one page long.
This brochure is only one page, but it's folded in thirds.
The third chapter in my biology book is about plants.
This novel has five chapters.
- 14 Do you have an assignment due tomorrow?
Yes, I have to read two chapters of this novel.
How many pages is that?
The chapters are almost thirty pages long, so I have to read almost sixty pages.
- 15 My assignment is due tomorrow!
I'll read twenty-five pages tonight.
These two college students are working on an assignment together.
Please read page fifty-four to the class.
- 16 There are only two pencils left. You'll have to share them.
Their assignment for their science class is due tomorrow.
Your assignment was due thirty minutes ago!
There is only one desk left.

He's cheating at soccer.
She's cheating at golf.
- 18 He shouldn't be cheating on his exam.
They'll have fifty minutes to finish their exam.
She's the last student to finish her exam.
He has to answer all of their questions in this exam.
- 19 What are you studying this term?
This term I'm studying art.
I studied math last term...
...but it didn't go very well.
- 20 Your most important assignment is due at the end of this term.
There are only two weeks left in the term, and then we'll have summer vacation.
This exam is very good. You've done well this term.
- 21 Today one of the students is presenting his chemistry assignment.
This class is meeting outside today.
I'm taking astronomy and chemistry this term, and they're both very difficult.
- 22 She failed her driving exam.
Congratulations! You passed your driving exam.
I can't believe I failed my exam.
We passed our exams!
- 23 If I play soccer today...
...I'll fail my math exam tomorrow.
If I study math today...
...I'll pass my math exam tomorrow.

2.5 Milestone

- 24 They're just starting college. They're planning to graduate in four years.
He's graduating from college today.
Now that she has graduated from college, she has become a teacher.
- 25 What's the matter? You don't look happy.
I'm worried that I'll fail your chemistry class, and then I won't be able to graduate.
If you pass your exam next week, you'll graduate.
It's possible that I'll pass the exam. I'll have to study a lot.
- 26 You're taking the exam the day before me.
Will you give me your answers?
Why do you want to cheat? You can pass this class if you study for the exam.
Okay. Instead of going to the beach on Saturday...
...I'll stay home and study for my exam.
- 27 Although I didn't do well on the exam...
...at least I didn't cheat...
...and I didn't fail!
Since you did well enough to pass the class...
...you'll be able to graduate with me on Saturday!

game.
What's the mistake?
I don't understand the words in the video
game. They're very complex.
The words are very simple at the beginning...
...but as you learn the language, the video
game teaches more complex words.
Of course the end looks very complex if you
don't understand the words at the beginning.
- 30 I think your team did well with this project.
Thank you. There were problems, but we
solved many of them.
Let's manufacture this game as soon as
possible.
I want it to be in stores by the end of
the year!

Index

In this index, each word is followed by the Core Lesson in which it occurs. The number of times that the word appears in the lesson is enclosed in parentheses.

En este índice, cada palabra está seguida por la Lección principal en que aparece. La cantidad de veces que aparece la palabra en cada lección está entre paréntesis.

In diesem Index steht nach jedem Wort die Hauptlektion, in der das Wort vorkommt. In Klammern wird angegeben, wie oft ein Wort in einer Lektion vorkommt.

Dans cet index, chaque mot est suivi de la Leçon principale correspondante. Le nombre de fois où le mot apparaît dans chaque leçon est indiqué entre parenthèses.

In questo indice, ogni parola è seguita dalla Lezione principale corrispondente. Il numero di volte che la parola appare in ogni lezione è indicato tra parentesi.

아래 색인에서 단어 뒤에는 그 단어가 나오는 핵심 학습이 나타나 있습니다. 괄호 안의 숫자는 각 단어가 핵심 학습에 나오는 횟수입니다.

この索引では、各単語の後にはコア・レッスンが記されています。また、コア・レッスンに出てくる各単語の使用回数はカッコの中に記されています。

在此索引中，每个单词后面都跟着出现该单词的“核心课程”。括号中的数字是该单词在该课程中所出现的次数。
